PROJECTS

VanFord Realty — *https://github.com/WillV1/vanford_realty*

Technologies Used: JavaScript, EJS, MongoDB, CSS, Node, Express

- Full-stack MEN application built to simulate a boutique real-estate firm, allowing realtors to make listings, write blog posts and show cities in service.

Wayfarer — *https://github.com/WillV1/project2-wayfair*

Technologies Used: Python, Django, CSS, PostgreSQL

- Django application with templating engine used to build a travel community, for users to share tips about their favorite locations around the world.

Gift Tracker — *https://github.com/WillV1/gift_tracker*

Technologies Used: React, Node, Express, MongoDB

- Full-stack MERN application, built to allow the user to track whom he/she is purchasing gifts for and how much he/she is spending compared to the amount budgeted.

RECENT EXPERIENCE

Koonce, Wooten and Haywood, LLP, Raleigh, NC — *Staff Accountant, CPA*

JUNE 2018 - DECEMBER 2019

Full-service professional services firm, proving tax return and advisory services, financial statement audits, reviews and compilations and bookkeeping services.

- Collaborated in teams of 2 -3 accountants to help administrative agencies and not-for-profit organizations meet financial reporting requirements.
- Assisted firm partners in completing over 100 tax returns, resulting in minimal tax liability for external clients.
